

# *Why offer COVID-19 Vaccines @ Work?*

1. You can receive tax credits to offset the cost of paid leave for employees to get vaccinated and recover from any after-effects.

2. Vaccination protects your customers and employees: by reducing the need for time off for quarantine, improving attendance, and maintaining safety.

3. Increases ability to have in person meetings and potentially reduce the need for masking.

*To host fill out the survey:*  
<http://bit.ly/COVID19salina>

**The Saline County Vaccination  
Collaboration will coordinate a  
time to come to your  
workplace to vaccinate  
interested employees.**
